WORK EXPERIENCE

- Built and customized websites using Elementor Page Builder.
- Converted Figma designs to WordPress with pixel-perfect accuracy.
- Handled website redesigns to improve UI/UX and performance.
- Developed features with custom HTML, CSS, JavaScript, and PHP.
- Collaborated with end-users in UAT sessions to gather feedback, conduct usability testing, and validate system performance, strengthening communication and problem-solving skills.
- Developed a custom WordPress theme using Advanced Custom Fields (ACF), enhancing expertise in web development and theme customization.
